

SEMINAR

Publishing in Physical Review Letters

Samindranath Mitra

Editor

Physical Review Letters

How do its editors determine **which papers to publish in Physical Review Letters?**

What should you know as an author and a referee?

Why should you submit your work to Physical Review Letters and other Phys. Rev. journals?

How are journals in general and PRL in particular **reorienting** amid increasing competition and other challenges?

I plan to address these and related issues and allow plenty of time for **Questions and Answers** during my presentation.

REMEMBER
Publishing in Physical Review Letters

October 27, 2014 – 12:00h

Place: ICN2 Seminar Hall, ICN2 Building, UAB

Invited by: Prof. Dr. Stephan Roche
